

Maximize your

with a Digital Timer

YOUR engine will be warm and ready to go when you are.

YOU'LL have instant heat for interior and defrost.

YOU'LL eliminate cold starts

PLUS for bus and fleet operators. Multi-day mode with automatic reset function **eliminates** the need for maintenance personnel to manually start the heaters each day.

All settings except clock are retained in memory in case of power failure.

Features:

- Easy to use digital timer.
- Set up to 7 days in advance.
- Two set times (T1 & T2) available.
- In multi-day mode – can be set for 5, 6 or 7 days per week with automatic reset. (Ideal for bus fleets).
- Operation indicator lights.
- Backlit LCD display.
- Lockout Mode used to prevent unauthorized changes to all settings and Timer programs.
- Manual Mode with user settable maximum runtime. 0.5 – 9hrs or infinite.
- Heater Diagnostic Codes displayed on LCD along with the flash codes.
- Compact size.
- Easy to install.
